## RUNAWAY ACCIDENT.

A Farmer and his Wife Seriously Hurt—The Rig Destroyed.

This morning, whilst Henry Phillips, of the 4th regiment of Toronto, and his wife were driving to the city, the horse became frightened when in the vicinity of Laidlaw's mill, on the Canadian road, and ran away, throwing them both out of the buggy.

Mrs. Phillips had her shoulder dislocated, and was generally bruised. Mr. Phillips had his back hurt and was bruised badly. The horse, a very wild animal, ran over the back on the Canadian road, a year or so ago. It continued its course at a break-neck pace until it was stopped by a large drain in front of the Bank of Commerce.

The backward to which the horse was hitched at was badly wrecked and the animal was killed. The runaway pitched into several rigs during its course, but no damage of serious nature was done.

Dr. Walker was called in and both patients are doing as well as can be expected.

## A FINE CIRCULATING LIBRARY.

A Visit to the Rooms of the Belleville Library Association.

Belleville can honestly boast of having one of the best circulating libraries in Ontario. Since the Mechanical Institute moved from the Robertson block to the Cronk block, on the corner of Hotel and Front streets, the same has been changed to the Belleville Institute and Library Association.

The new premises have been admirably fitted up. The ceilings are high, the rooms well ventilated, and most important of all, there is plenty of light. The second floor will be utilized as a lecture room. On that floor a room has also been set apart for chess, where members can indulge in their favorite game in perfect seclusion and tranquility to their hearts' content.

On the third floor there is a large well lighted room which has not yet been put to any use, but which would make a good place for a museum and which would add greatly to the interest of the room.

The upper stories are reached both from the reading room and from an entrance on Hotel street.

On the ground floor are located the reading room and library, in which will be found the latest information obtainable in the way of books, papers, etc. With the addition of the new books recently purchased, Belleville can boast of a library embracing over five thousand volumes of standard works in art, fiction, science, history, theology, etc. When the new catalogue, now being published at this time, is issued members will not be allowed to enter the library, which will hereafter be enclosed by a railing. The librarian will give out all books at the request of members, who will furnish the number of the book desired. This will avoid confusion and waste of time in looking for books, which are often already in the hands of other parties.

If there is one feature more than another on which the Belleville Institute Library Association, it is in the possession of a courteous and pleasant librarian in the person of Mrs. F. T. Fenton. Always accessible and anxious to please, Mrs. Fenton has made herself generally popular with the members and it would be hard to fill her position, which it is hoped will not be vacant for some years to come.

A reporter yesterday afternoon, in conversation with the librarian, gathered some interesting information. Last year there were 225 volumes of fiction in the institute, and 102 works on biography, the latter being next in point of number to the fiction. It was stated that the great majority of readers read fiction, and that the great majority of the books were being read by different persons.

While the next class in point of numbers was verse and travel, of which only 40 books were circulated. It can thus be seen how little the many other classes of books are perused by Belleville's book-worms.

The Ontario tour party to the Napaneau district, which was held in an agreeable manner, the attendance being about 2,000. The races resulted as follows:

Word was sent to the Canadian Temperance League yesterday by Miss McGee, daughter of Joe Hax, temperance evangelist, that her father had just suffered a third paralytic stroke, and that his death was anticipated at any time. His home is at Clarendon, N.Y.

A soft, fair skin is the result of not pure blood and a healthy liver, to secure which Ayer's Sarsaparilla is the superior medicine. Ladies who rely upon cosmetics to beautify their complexions, should make a note of this, bearing in mind that they can't improve upon nature.

The Roman Catholic picnic in Hurley's grove, near Reed, yesterday was very successful in part of attendance. A large number of old and new devotees were present, among them being Mr. Farrelly, W. F. McManis, O. D. Macneil, J. L. Lough, E. McNeill, W. W. Patterson, F. Carney, and S. Lester.

A good deal of dissatisfaction is expressed among the officers and men of the brigade now encamped at Kingston.

The group are much inclined to those furnished at Belleville, being very common and two miles from the river. Drinking water is furnished in barrels, and it is not fit to drink.

Mr. Justice Ross has addressed a letter to Sir Oliver Mowat, urging that the Government take over the control and management of the poor instead of leaving it in the hands of the local authorities to do as they please.

The Judge's letter was prompted by the fact that when holding the session at Stratford he saw much hardship resulting from indigent persons being confined in jail.

The Christ Church and St. George's Sunday School excursion to Twelve Oaks Point was a grand success. An enjoyable time was spent at the point. The excursion was organized by the ladies of the church, and the excursion was a success.

## AFTER LONG YEARS.

THE SERVICES OF SERGEANT JOHN McCREDDEN ARE DISMISSED WITH A BENEVOLENT ANSWER.

He was Appointed on the Force June 17th, 1868, and had been a Sergeant Twenty Years. He has not yet Fortified a Bénédictine Answer.

After a quarter of a century's service on the police force, Sergeant John McCredden, at exactly ten minutes to six o'clock last night, was relieved of his duties by the resolution of the Board of Police Commissioners, to whom the responsibility of reducing the force was placed upon him.

Chief of Police Newton explained to-day, the duty was not a pleasant one, but the resolution of the Board was imperative, and it was a duty he could not shirk.

The resolution of the Board, said the Chief, reads: "The Chief of Police, in the exercise of his duty, has the honor to inform you that the services of such one of the force as will impair the efficiency of the force and that such one member shall receive as a gratuity one month's salary, and be discharged from the service for the month of July, 1894."

## DR DENEEN GANED.

THE CITIZENS OFFER HIM A PUBLIC TESTIMONY OF THEIR ESTEEM

Dr. Deneen's name is a familiar name to the many kind words read on the behalf of the Belleville Citizens.

Dr. S. H. Deneen, late U.S. Consul for this consulate, was last night, in the City Council chamber, publicly tendered a substantial token of the respect and esteem in which he is held by the citizens of Belleville, in the shape of an address and presentation of an elegant gold headed cane, which was bought from Mr. Allan McLeod, and on which was inscribed the words: "Presented to Samuel H. Deneen, U.S. Consul, Belleville, July 7th, 1893."

Mr. L. W. Yonema read the following address and made the presentation:

To Dr. Deneen, of Belleville:

It is with feelings of profound regret that a few of your fellow citizens have called upon to part from one who, in his capacity of representative of a great nation, has so borne himself as to win the respect and esteem of all with whom official and personal relations have brought him in contact. You, Sir, have identified yourself with the daily life of our citizens in such a friendly and unobtrusive manner, and have evinced such courtesy and tact in office, that we will ever remember with pleasure the period of your personal and diplomatic residence among us.

And remembering, we trust we will be remembered, ever kindly by you, and that as a symbol of our sincere regard you will accept, and after use this cane which we present to you in the hope that it may prove associated with many pleasant memories of your consular at Belleville.

In the consulate of Belleville, you have ways have a staff, a staff and a guide; and you always will find the same good influence and sympathy in the hearts and houses and public life of the city of Belleville and the Bay of Quinte District.

"Mr. Mayor, Ladies and Gentlemen:—I desire to express my sincere thanks for the kind expressions relating to myself in the address which has just been read, and also to the handsome present which has been bestowed. I shall treasure them as tokens of the pleasant days spent in this beautiful city. It has been the experience, I believe, of all the consuls who have represented the United States in Belleville that they have taken their leave of the city cherishing the best wishes for the people and parting from them with regret. The citizens of Belleville have treated the U.S. consuls with such courtesy and respect, and have so borne themselves as to win the respect and esteem of all with whom official and personal relations have brought them in contact. You, Sir, have identified yourself with the daily life of our citizens in such a friendly and unobtrusive manner, and have evinced such courtesy and tact in office, that we will ever remember with pleasure the period of your personal and diplomatic residence among us."

## A NEW BOOK.

### Witness to the Deed,

By George Manville Fenn, author of "Muras Blades,"  
"Jovial Companions," "The Man With a Rifle," etc.  
etc. Price 6s.

George Manville Fenn's stories are almost certain to be dramatic, strong in plot, and vivid in the portrayal of character. A young naturalist, Malvino Stratton, is about to marry a lovely and rich widow, when a stranger appears at the scene and revealing himself the husband of the murdered bride. He demands back money which Stratton refuses, a struggle takes place between the two, a river is used, Stratton is wounded, and then, at a second shot the stranger falls lifeless.

When they arrive they find him suffering from what is apparently a self-inflicted wound, and half mad with despondency and terror. From this point on the narrative sustains its interest without a break through a series of exciting incidents, till, after a tragic climax, the lovers are re-united.

## A Centiman

Who formerly resided in Connecticut, but  
who now resides in Belleville, writes: "For  
20 years past, my wife and I have used Ayer's  
Hair Vigor, and we attribute to it the dark  
hair which she and I now have, while hun-  
dreds of our acquaintances, ten or a dozen  
years younger than we, are either gray-headed,  
white, or bald. When asked to give a recipe  
for the retention of color and natural beauty  
of the hair, we reply: 'In the use of Ayer's  
Hair Vigor—nothing else.'"

"In my old age, my hair was nearly bald,  
and my wife's hair was turning gray. I  
induced her to use Ayer's Hair Vigor, and very soon,  
it not only turned a healthy growth, which  
has remained luxuriant and glossy to this day,  
I can recommend the preparation to all  
suffering from a general hair-fall. It is all  
that is needed to be a 'Centiman' again."

## The Intelligence

BELEVILLE, TUESDAY JULY 18.

### THEY WILL WAIT.

The McCormick Implement people, of Chicago, who were looking for a location for a Canadian branch of their works, now state that they have decided to await further legislation by the United States Congress and Canadian Parliament, in the belief that such material reductions in duties will be made that there will be no obstacle to their occupancy of the Canadian market and consequently no necessity of establishing works here.

### WIDE OF THE MARK.

In his speech at Waterloo, Mr. Laurier claimed that the Mackenzie government raised sufficient revenue to run the country by a tariff of 17 1/2 per cent. on imports, while the Conservatives had raised the tariff to 30, 40, 50, and in some cases even to 60 per cent. By turning up the trade and navigation returns, it was found that in 1878 Ontario Mackenzie's all the duty imported paid duty at the rate of more than 80 per cent, oil more than 30 per cent, hops nearly 30 per cent, malt nearly 80 per cent, rice 35 per cent, sugar 24 per cent, apples 115 per cent, wheat 24 per cent, Virginia 50 per cent, wine 70 per cent, cigars 40 per cent, sugar 45 per cent, apples, etc., 40 per cent, manufactured tobacco 90 per cent, and so on. Mr. Laurier, as a public speaker, must be responsive to the people for the truth of his statements. In future, Mr. Laurier, just take the trouble to make your words harmonious with facts.

### A Traveller's Tale.

OWASAW, July 17.—W. F. Spahan, of 90 Nassau St., a traveller from the known house of Russell, Gardner & Spahan, tells an interesting story about the cure of kidney trouble that had afflicted him for the past nine months. Ever since attack, Mr. Spahan tried physicians' prescriptions and other remedies but none had any effect. He constantly suffered pain, which finally became so intense that he could not sleep. Death seemed near, but possible deliverance from his suffering. He got a box of Dodd's kidney pills from Harry Waters, a druggist here, and took one box effect a perfect cure. Mr. Spahan is to-day the happiest man in the Ottawa valley, and he has many friends who rejoice with him.

### The Greatest Yet.

One of the greatest discoveries ever made in the medical line for the cure of skin diseases and dandruff, is now getting introduced into the country, and placed on sale by the drug trade. There is nothing new, new than a scurfy scalp, and nothing more disagreeable than a dandruff. It is a new discovery on gentian color and is called Kallig. Many remedies have been offered from time to time to stop this evil, but without effect. A specialist—one of the world's greatest specialists and specialist in scalp diseases—of Vienna, Austria, has been successful in discovering Dandruffin, which is now on sale everywhere. Dandruffin works quick and sure, and is the same, most desirable to have. Ask your druggist for it, and who says you'll tell your friends, that all may know how successful it works.

### About Swinling.

The small boy is now "going in swim-ning" about every day. The sudden drowning of good swimmers is not due to the fact, says the New York Medical Times, that there is nothing in the water to prevent the ordinary swimmer supporting himself with his hands on his back, nor to cause him to throw up his hands and swim for all like a stone. The explanation offered is that the drum of the ear is perforated and the pressure of the water causes the eardrums to burst. If this be the reason, the ears should be protected with a stopper of cotton before going to swimming.

### Lucky Brutes.

"Clear treats me like a dog."  
"Well, you don't seem to feel very bad about it."  
"I should say not. The treats me as good as treats treat their puppies—kisses me and loves me like everything."

## The May Trade

(Trade Bulletin.)

There is a good English demand for Canadian hay, and great quantities of alfalfa, clover and shippers should be to it as much as possible, hang on to it, and as soon as it shows signs of being off, drop prices a point or two in order to bring it on again, rather than have our hay and make her pay for it. There is no "boom" about it, as it will be found that if it is forced beyond a certain limit, Canadian hay will be dropped. The alfalfa prices by buyers on the spot are at the moment there is little or no freight space available, and as buyers, of course, do not want to store, they are not offering what is wanted. But for forward delivery, alfalfa is selling at \$14.00, or about 40 to 50 per cent more than could have been obtained 1 year ago. We would again advise our farmers to be satisfied with a good thing, and sell their crop at present prices, which range from \$12 to \$13 per ton at country stations.

presented the following scores were made

ry, 55; P. Clarke, 50; Bandman, 45; and

W. P. Maloney, 72; P. Thompson, 60.

Mr. Denmark, D.D.G.M., and Mr. E. L.

Palmer, last night visited Madoc Lodge, A.

O.U.W. In spite of the fact that the

club fifty lodgers turned out. After the

work was, the visitors were entertained

at supper.

Mr. W. was prostrated with severe bilious

complaints, writes Erastus Southworth, of

Bath, Me., "after trying a number

of remedies, I was finally induced to take

Ayer's Pills. I had scarcely taken two

boxes when I was completely cured."

J. L. Thomas, formerly proprietor of the

Woodbine Hotel in this city, is now pro-

prietary of "The Boston," 1469, State

street, Chicago. He invites the patronage

of his Belleville friends, while taking in

the White City this summer. 13353.

John Doreen, Shanownville, was yester-

day at the police court, charged with sell-

ing liquor after hours, and also selling liquor

to an Indian. Mrs. Doreen and Miss

Doreen are also charged with selling liquor

after hours. The cases were adjourned un-

til Wednesday.

Miss Roberts, barrister, have taken

proceedings on behalf of Mr. Joseph

Thompson of this city, to procure a bill

of divorce at the law office of Mr. J. H.

Donnellan, Parliament, from his wife Katie

Thompson, also of this city, on the ground

of alleged adultery.

A full meeting of the Hospital Board

was held last evening at the residence of

Mrs. N. Jones, to appoint a member on

the medical staff of the hospital. Dr. Nash

has left the city. By resolution Messrs.

A. G. Northrop and J. B. Pitt, mem-

bers of the Advisory Board, were appointed

scoutmen. A secret ballot was taken

which resulted in the election of Dr. Dixon.

At the police court yesterday the charge

of bigamy against Frank Smith was fur-

ther laid over until Friday next. Magistrate

Wright said that if the defendant were

sentenced were not ready, he would dismiss

the prisoner. It is not likely that the case

will be pushed, since it would cost the

defendant to convict Smith. He was fined \$25

in default to 30 days, for committing a breach

of the health act.

Mr. McLeod, chosen mayor, of Bel-

leville, attended the meeting of the Kingston

Chess Board yesterday afternoon. The game

was diagnosed with the bar business was

done. He started the bidding at the Board

offered the highest price for the game. The

chess. It was sold after the Board closed

to other buyers at the same price he had

offered. The policy of the board in the

decreasing competition is very short-sighted

policy.—Wm.

## PROPERTY IN THE NORTH WEST

Mr. Walter Alfred speaks of the Develop-

ment of Calgary.

Mr. Walter Alfred last night returned

to the city from Calgary, where he is

superintending the erection of a \$40,000

office. Mr. Alfred will remain in the city

for three or four months, after which he

returns to Calgary to complete his contract.

He speaks in high terms of Calgary and its

future prospects. Calgary has now a popu-

lation of 10,000, and is steadily growing.

In many respects the stores and business

portion of the town are even better than

Calgary, although the living is much

more expensive. Merchants have to pay

from \$2 to \$3 a week for board. At

least \$100 a day in dollars a week, while

the leading hotel charges fifteen dollars

per week for the cost of life cost in gen-

eral. A suit of clothes sells for twice

as much as they do in the east. Laborers

get \$2 a day and subsistence from \$3 to \$5

per day. Calgary is surrounded by prairie

land, which is only fit for grazing pur-

poses. Agriculture is not carried on to any

extent. While the summer is not so warm

as here, the thermometer dropped to 50°

below zero last winter. The merchants

and business men are a substantial class

of people, and to strangers Calgary, situated

as it is in the centre of a wide expanse of

prairie land, is a revelation.

## FOUR SCORE OR MORE.

OUR LIST OF PATRIARCHAL HOMES

CONTAINS 51 MORE NAMES. THE OTHER IS

NEARLY 50. A MOST REMARKABLE LIST

OF THOSE HIGHLY INTERESTING

AND

INTERESTING.

The interesting list of names of residents in

this district who are over eighty years of

age. As the list increases the fact becomes

more surprising that so many people could

have attained such remarkable longevity in

a district encompassed in a radius of seven

or five miles. It is impossible that a full

list be secured, since people who have

attained such an age have long since retired

from the active arena of life and are not

so numerous as to be able to be taken into

account. Those who are still in the active

stage of life are again added to the list as

it is desirable that the list be closed as soon

as possible.

Probably the most interesting case of

longevity brought under our notice is that

of Mrs. Crowther, now living at Neword,

and her brother, Mr. Samuel Minster, now

living at Redversville. These two were

born in July 15th, 1810, and are now

wonderfully well adapted. For sale at the  
"PHARMACY."

VALUABLE JEWELRY AND CUTLERY FOUND IN A BOX CAR.  
 The surrounding Country Being Scoured by the Police—An Experience With Cutlery.  
 About noon yesterday the Belleville police received word from Sidney Crossland that three boxes had been found in a box car and had been put off. Subsequently a value, containing valuable jewelry and cutlery, was found in the same car. Investigation developed the fact that the jewelry had been recently stolen in Montreal and that a reward of \$500 was offered for its recovery. Officers Hayes and Morrison took the case in hand yesterday afternoon, but were unable to locate the supposed thieves. Officer Hayes learned that two men had been seen on the Grand Trunk track near Graham's cut and the officer took the next east bound train. He proved to be two college students, who were waiting for the benefit of their hands from New York to Chicago and return. They were well dressed and had plenty of money with them. They were following another car which had started out on the same route a few days before. The floor told them that they were liable to arrest for trespassing on the company's property, and the men were laughing and waving at the policeman five dollars if they would arrest them and have them committed for thirty days. They had not been arrested yet and were looking forward to such an experience with some interest. The floor returned to the city in the evening.

**A GLIVER ARREST.**

A BURLAP GAUGE ATTEMPTING TO ENTER A HOUSE.

It is proven to be Wm. Dunsen, a Young Man With a Bad Record, Stolen Goods Recovered—Laws & Miller's Hardware Store Entered.  
 A few days ago information was given Chief of Police Newman that Wm. Dunsen, a young man who has a bad record, was planning to burglarize the residence of Mr. J. H. Maclean, postmaster, on the corner of Bridge and Charles streets. The time fixed for the operation was not exactly known to the police, but it was thought that the burglary would be attempted on Saturday night. The chief had two officers, Morrison and Hayes, and although they waited until nearly daybreak the burglar did not materialize.

Last night the same precaution was taken by the police. Early in the evening a careful examination of the premises was made. Officer Morrison was stationed in a shed in the rear of the yard, while Chief Newman secured himself in some bushes separating the yard from that of Mr. Maclean's. Shortly after midnight a man, crept noiselessly over the rear fence. After dropping on the inside he cautiously looked around to see that the coast was clear. Walking over to the shed in which Officer Morrison was stationed, he peeped in and recognized the outline of a man. He made a desperate leap to reach the fence over which he had to pass, but his officer was quick for him and grasped him as he attempted to throw himself over. By the Chief Newman was on the scene and the burglar, who proved to be Dunsen, was soon overpowered and relieved of a couple of watches and a screw driver. The fact that these latter goods were new aroused the suspicions of the police that they had been stolen from some hardware store.

Under instructions from the Chief, officers Stoneberg and Hayes, between eight and nine o'clock this morning, visited Mrs. Dunsen's residence on Front Street. There was no sign of the burglar, but the house was searched, but no stolen goods were found. The officers next visited Dunsen's store, 117 on Piusville Street. As they entered a rear shed, officer Stoneberg picked up a sharp pointed knife lying on the ground, which showed evidence of having been used in digging up the dirt. He commenced to prod the earth in several places, when the knife suddenly penetrated a soft spot. Digging down, he discovered the following articles, crammed in an old hand made carpet: two pairs of barbed wire, two pairs of barbed wire, seven pairs, and a bundle of nails. The goods were all of the best make, and had not been in the ground long. Being taken to the police office the prisoner told the officers that if they returned to the shed they would find in another part of it several pairs of calicoes.

Officers Cook and Morton then went out on an examination of the hardware store. A rear window of John Lewis' hardware store was found insecure, but it had not been entered. A window in the rear of Wm. McEwen's hardware store had been cut out, but the burglar, evidently finding out that he had made a mistake in the store, did not go in, but transferred the scene of his operations to Lewis & Sill's hardware store in the next building. Here a window in the cellar had been removed and the articles, which were this morning identified, taken.

The accused was arraigned in the police court to day, but at the request of Mayor Wallbridge, who was sitting at the desire of the prisoner's mother, Magistrate Finlay, postponed the case until to-morrow.

The records in possession of the police court clerk show that Dunsen was arrested on Sept. 16, 1889 on a charge of stealing a revolver from Fr. Vignola. He was released after three months and was sent up for a week. On Dec. 26, of the same year he was committed for attempting to burglarize John McEwen's hardware store. On Jan. 2nd, 1891, he was arrested for the larceny of a barber's box, which case was not yet concluded.

**DISFIGURED FOR LIFE**

THE DESPAIRING cry of thousands afflicted with skin diseases.

Do you realize what this disfigurement means to sensitive souls? It means isolation, seclusion. It is a bar to social and business success. Do you wonder that despair seizes upon these sufferers when Doctors fail, Standard remedies fail, and nostrums prove worse than useless?

Skin diseases are most obstinate to cure or even relieve. It is an easy matter to claim to cure them, but quite another thing to do so.

**CUTICURA REMEDIES**  
 Have earned the right to be called Skin Specifics. Because for years they have met with most remarkable success. There are cases that they cannot cure, but they are few indeed. For a long drawn-out, expensive treatment.

Belleville, July 25, 1893.

Total unaccounted for, \$5,450 00 \$5,817 00

Total expenditures, \$5,450 00 \$5,817 00

High School, \$1,000 00 \$1,000 00

Public and Dep. \$2,000 00 \$2,000 00

Municipal rate, \$1,000 00 \$1,000 00

Rate of interest \$1,000 00 \$1,000 00

Conditions of payment, same as last year

Ald. Loughran moved the chair in committee

of the whole on reports.

The Industrial Committee granted \$100

for the purpose of developing the iron in-

dustry of Hastings county.

Ald. Collins objected to the appropriation

of \$100 for the continuation of George

street. He moved to strike the same.

Ald. Fournier explained that the people

living on Maria street had long suf-

fered in getting by the bridge on the

proposed street in the near future. The

total cost of the work would be \$1,000

of which \$400 would be met by private

subscription if the city appropriated the \$600.

Ald. Wells voted for \$200 if no more

would be required, but he did not think

the work could be done for that money.

Ald. Halls knew residents on Maria

street who would furnish gratis a week's work

with a team of horses in order to have the

street opened.

Ald. Sherrill said the grievance was one

of long standing. There was not a man in

the ward who would not vote to extend the

road. Many of the residents were com-

plained in the petition for the extension of

the road in order to get on George street

properly.

Ald. Collins said the people did not have

to walk five blocks out of their way, but

Ald. Sherrill proved his remarks in the

case of at least twenty residents on Maria

street.

Ald. Sherrill objected to the increase

of the Chairman of Finance. Through

out the year he had been taking money,

but at the end of the year he had made ap-

propriations for George street and Catherine

street—two luxuries, while the Front street

sewer was left to rot, and which was of

greater necessity than the two former.

He would not object to a grant to all of

the proposed improvements.

The item carried.

"I enclose a copy of your latest book on  
National Bookkeeping has been received.  
I have made a thorough examination of the  
same and find that no better illustration of this  
important subject could be given than the  
which is found in the first twenty pages.  
It is so arranged that it is so arranged in its  
treatment, logical in its arrangement and a model  
of excellence in every respect.  
I think it is the best text book on bookkeeping  
ever published in the United States."

## ENTRANCE EXAMINATIONS.

Those Who Were Successful at Belleville and

Trent.

These examinations took place on the

28th, 29th and 30th days of June, and at

Trent 35 candidates presented themselves

for examination for admission to the 10th

class of High School, and 100 at Belleville.

Of those that wrote at Trent, 35 were

successful and 14 failed to reach the re-

quired minimum in the important subjects.

The failures were chiefly in grammar and

arithmetic, 11 failing in grammar, 9 in

arithmetic and 1 in spelling.

Of the 100 that wrote in the High School

112 have been admitted. Some were

recommended, but few of these were re-

jected at the Central Board in Toronto as

having failed in spelling or in some of the

other subjects. The failures were pri-

marily in grammar, arithmetic, geography

and spelling. The spelling of the 100

failed at as for admission to the 4th class,

and yet a number failed in this subject.

The examination board recommended a

thorough teaching of grammar in many of

the schools, as some candidates wrote

at Trent and Belleville who seemed to

be ignorant of clauses, analysis and parsing.

Below will be found the names of the

successful pupils as confirmed by the cen-

tral authorities, with the schools, the names

of the teachers who prepared them, and the

marks obtained by each.

At Trent:

John McNamee, Bay School, Mr. Hardy, 62.
